Backend: PHP, Laravel, REST API (basic)

Frontend: HTML, CSS, Bootstrap, Blade, Javascript

DataBase: MySQL, SQL

Tools: XAMPP, Git & GitHub, Ai agent

Learning: Laravel, API, React

WORK EXPERIENCE

Business Development + Software Engineering Intern

Remote Part Time

Sein Yaung So Manufacturing Co., Ltd

May 2026 – July 2026

- Supported software and AI-related business initiatives through technical research, partner identification, and business outreach activities.
- Conducted research to identify potential solar energy technology partners and supported partnership communication and outreach.
- Researched tractor and agricultural equipment dealers as potential partners for an AI-powered mechanic web application and assisted with targeted business outreach.
- Gained practical exposure to AI-powered products, software business operations, partnership development, and technology-driven solutions.
- Contributed to a small MCP-based static website project and supported basic web development and implementation tasks.

PROJECTS

POS System (SME Business) *Technologies: Laravel, Bootstrap, MySQL* | [Github](#)

Developed a complete Point of Sale system for small business use.

Includes product management (add, edit, delete, stock control), sales transaction handling, invoice generation, and inventory tracking. Built with a simple and user-friendly interface for daily business operations.
